PROFESSIONAL SUMMARY

Analytics and Insights professional with experience delivering Power BI dashboards, ServiceNow reporting, KPI frameworks, and workflow automation for IT service-management and operational teams. Skilled in Power BI, SQL, Python, Excel, ServiceNow, and Power Automate, with a track record of translating incident, change, backlog, and SLA data into decision-ready insights for operations and leadership stakeholders. Experienced in improving reporting efficiency, data quality, service visibility, and process compliance through automation, root-cause analysis, and stakeholder collaboration

SKILLS

- **Analytics & BI:** Power BI, SQL, Python, Excel, Pandas, Dashboard Development, Data Visualization, KPI Design, Executive Reporting, Data Storytelling, Trend and Variance Analysis, Root-Cause Analysis, Data-Quality Validation
- **ITSM & Operational Analytics:** ServiceNow, ITSM Reporting, Incident Management, Change Management, Service Requests, Backlog Analysis, SLA Analysis, Incident-Ageing Analysis, CAB Reporting, Service-Performance Analytics
- **Automation & Process Improvement:** Microsoft Power Automate, Excel Automation, Workflow Automation, Reporting Automation, Process Improvement, Requirements Gathering, Process Mapping
- **Consulting & Governance:** Stakeholder Management, Business Requirements Analysis, KPI Benchmarking, Insight Communication, Data Governance, RBAC, User Access Management, Audit Readiness, Security and Compliance

WORK HISTORY

Insights Analyst, 08/2025 - Current

Tata Consultancy Services – Chennai

- Built Power BI dashboards for weekly and quarterly service-performance trends, replacing static reports and reducing ad hoc data requests by ~20%.
- Automated incident-aging reporting and SLA-based reminders with Power Automate, cutting processing time by 88% (45 min → 5 min) per cycle and reducing breach risk.
- Delivered 30+ ad hoc ServiceNow dashboards and reports on incidents, changes, and service requests, used by 10+ stakeholders across operations and leadership.

- Co-designed 10+ service-performance KPIs with incident and change-management leaders, introducing monthly benchmarked measures and securing senior-stakeholder alignment on targets.
- Supported CAB and change-management reviews by validating change-risk assessments and tracking SLA compliance, contributing to 98% adherence to the change process and improved visibility into operational risk.
- Led root-cause analysis of 10,000+ Citrix error records using Excel-based classification scripts, surfacing recurring incident drivers and informing remediation prioritization.
- Designed an Outlook-to-ServiceNow automation handling 500+ daily emails, reducing manual ticket-creation effort by ~50 hours/week and improving incident-data completeness.

Security Deployment Lead, 06/2023 - 12/2023
Tata Consultancy Services – Chennai, India

- Administered user onboarding/offboarding for ~100 associates on the H&M project, granting least-privilege access on start date and revoking all access on the last working day to meet security and audit requirements
- Automated monthly access reviews for ~100 users using Excel automation, cutting validation time by 85% and achieving 100% audit-ready documentation
- Delivered data-security and compliance training to 100+ staff on the H&M project, reinforcing least-privilege access and secure data-handling practices

Assistant Systems Engineer, 11/2021 - 12/2023
Tata Consultancy Services – Chennai, India

- Executed end-to-end migration of 16 legacy PKI servers to Windows Server 2019, encompassing ADCS migration, certificate-template upgrades, SSL/TLS implementation, post-migration validation, and cross-team collaboration.
- Co-Developed Azure-based real-time monitoring dashboards, improving incident visibility and reducing average incident-response time by ~20%.
- Analysed ServiceNow operational data to identify workflow inefficiencies, contributing to automation of service-request processes and reducing manual handling time by ~15%.
- Participated in Agile sprints to review tickets, prioritise backlog, and track performance, contributing to team achievement of >95% sprint delivery commitments.
- Created and updated 20+ knowledge-base articles and standard operating procedures (SOPs) to enhance cross-team knowledge transfer and standardised issue-resolution practices.

EDUCATION

Master of Science: Data Analytics, 07/2025
Aston University - Brimingham, United Kingdom

- Developed expertise in predictive analytics, data visualisation, and statistical modelling using Python & SQL.
- Dissertation: Anthropogenic Impact on Marine Biodiversity

B.Tech: Mechanical Engineering, 06/2021

SRM Institute of Science And Technology - Chennai, India

- Captain & Vehicle Dynamics Head – Team Enigmatic Plodder: Led suspension optimisation and team resource management
